

**Green Team  
Minutes  
May 20, 2011**

-eWaste Drive—It was a great success! We raised \$668.66. Another drive is scheduled for January 21, 2011 to take advantage of people wanting to get rid of old items they replaced at Christmas.

-Ecology Rep—The Green Team would like to have a representative from the Ecology Club attend our monthly meetings. Ms. Esparza will speak with the Ecology Club moderators.

-Using Recyclables—Let's be sure to remind all teachers to use recyclable or compostable dishes, cups, tableware, clam shells, etc. It is important that the Room Parents are aware of this in planning materials for class parties. Perhaps we should add a Green Parent Rep for each class.

-Class Reps—Would it be possible for Ecology Club to have a rep from each class who could remind classes of the green tips we are working on? Could these reps also hold green tip signs to remind parents, as well?

-Next meeting will be held in early September.
